

We make fashion circular, keeping it luxurious.

You are dressing an innovative, high quality, sustainable **cashmere** material made with **Relux™**, a low impact new **luxury fiber** made with noble **textile-production waste** and **unworn valuable clothes**.

This **fiber** comes from **Re.Verso™**, a 100% made in Italy, **fully traceable** and circular production system that processes it to create yarn and **fully finished fabric**.
